

EmergencyConnect

More powerful emergency notifications for Teams

Modern Work

Specialist
Calling for Microsoft Teams

Boost safety & compliance

Ensure the right people are notified, every single time with multi-channel notifications.

Get enhanced insights

Real-time and historical reporting empowers your team with the right data.

Trusted Microsoft expertise

Our team of experts has earned Microsoft MVP awards in double digits and we're proud to be a Microsoft Solutions Partner.

EmergencyConnect is a supplementary tool designed to provide additional notification options and insights. EmergencyConnect does not replace or interfere with the processing of actual emergency calls or configurations required by applicable laws. The responsibility for implementing and complying with emergency call processing requirements remains with the customer.

EmergencyConnect

More powerful emergency notifications for Teams

EmergencyConnect is a mission-critical notification solution that ensures the right people are reached and have visibility whenever an emergency call is placed in Microsoft Teams.

- ✓ **Multi-channel notifications** — SMS, email, desktop alerts, and more
- ✓ **Smart routing rules** — configurable in an easy, secure online portal
- ✓ **Location intelligence** — enriches alerts with dynamic & registered addresses
- ✓ **Power BI reporting** — real-time & historical insights to strengthen safety programs

Dedicated expert support

Our Microsoft Teams experts guide you through setup, ensuring a quick and easy onboarding experience.

Easily manage and update your policies

EmergencyConnect offers custom alerting policies that can be easily managed in our SSO-enabled portal.
